GYMNASIO PLATANIA

Our students designed logos for the competition that took place in Bucharest, Romania.

1st mobility in Bucharest, November 2019. You can read more about it [in our album](#).

In February 2020 we welcomed our partners in Chania, Greece for the 1st transnational meeting.

Our students are preparing a song for the mobility in Izmir, March 2020.

You can read the lyrics [here](#). Unfortunately the mobility in Izmir didn't take place as planned due to the restrictions of the pandemic.

The lyrics were transformed into a video clip. You can see the [first version](#) and the [second one](#).

The results of the evaluation of the first year of our programme can be seen [here](#).

During the covid year our students worked on scenarios concerning social bullying. The results of their work were transformed in a [book](#).

How did the pandemic influence the realisation of our project? Ten of our students(2 from each partner school) formed a group, worked online and created a book with bullying stories, which you can see [here](#). Our students participating in the online meetings held in zoom platform share their experience:

SCUOLA SECONDARIA 1° COCCHI-AOSTA TODI

When we decided to answer the Call in 2019 and participate in an Erasmus+ on European Schools Stand against bullying no one would ever have thought to face and manage the project in a situation like the present. The students started the first activities making posters and the logo for the project.

The opening meeting was held in Bucharest in november 2019. During the meeting the students attended lessons at school carrying out activities with their partner classmates.

The teachers introduced their works and attended workshop lessons on bullying. Once back the students disseminated their experience through an article on the local newspaper Tam Tam underlining the value of such an experience.

The 1st Transnational meeting was planned to be held in Chania, Greece from 26-28 February 2020 but due to the outbreak of the Covid 19 Pandemia it was impossible for us to participate. Notwithstanding the situation we participated in the session with our partners via Skype.

This experience was stressed in the article "Coronavirus doesn't stop School Projects".
<https://www.iltamtam.it/2020/03/11/il-coronavirus-non-ferma-i-progetti-a-scolastici/>.
The school has then for all the rest of the year undergone a tough lockdown and online lessons. Notwithstanding the situation the activities have been affected.

During the year the School has organized on line projects as CYBER ANGELS. The aim of the project was to experiment on new methods of interaction with the students in order to promote active listening on behalf of the educators and start a discussion with primary and secondary school students on the issues of a conscious use of the Network and Social Media. The school also participated in the SAFER INTERNET DAY in February 2021.

In spite of pandemic situation 10 students from 5 partner schools came together on zoom and collaborated for preparing an eBook: <https://www.storyjumper.com/book/read/109342956/60d8d97a7126a>. You can see how we worked collaboratively in this link: <https://youtu.be/s3z3uh7HuEM>. Also you can follow our school here <https://wakelet.com/wake/7yfZkiJqYRI4g9O3jp6in>. During the school period of face to face or zoom platform, our Project student team has created all these works and learnt many things about bullying and digital tools. They also want you to learn what bullying means by listening to [them](#) and to stand against bullying together with them. **"Don't let the bullies win!"**

ERASMUS+ “ESSAB” – “European Schools Stand Against Bullying”

Augusto Louro working for a School without Bullying

The 2020/2021 school year was very productive at Escola Dr. António Augusto Louro. 2nd and 3rd cycle students worked all year on the Bullying theme, even when they were in distance learning. We started the year with anti-Bullying posters for the January 30 exhibition, «School Day of Nonviolence and Peace». Meanwhile, the younger students created illustrations (<https://www.emaze.com/@AOTZTOILO/gallery>), constructed poems, conceived stories represented with puppets and even created anti-stress books, appealing to the respect for everyone. Back to School, after distance learning, the work and awareness of students and the educational community about the problem of bullying continued with the creation of videos (<https://youtu.be/9J6c3kLae-Q>) and virtual stories ([https://read.bookcreator.com/FQnit03CSObsk2KWASUjrsxL64s2/tBraLcnWSiuevP](https://read.bookcreator.com/FQnit03CSObsk2KWASUjrsxL64s2/tBraLcnWSiuevPC-mD_Ruw)

[C-mD_Ruw](https://read.bookcreator.com/FQnit03CSObsk2KWASUjrsxL64s2/tBraLcnWSiuevPC-mD_Ruw)), where older students presented Bullying at School scenarios and solutions, guidelines for solving them, showing that it is possible to **create a School without Bullying!**

ESSAB – Escola Dr. António Augusto Louro (Portugal)

On the 13th of October 2021, an awareness session was held for teachers and non-teaching staff about Bullying. Eight professors and 14 employees were present. The session lasted 3 hours and was guided by members of the association "NO BULLYING - PORTUGAL". This training session was intended to improve the skills of adults in this school, in order to be more alert to the signs of possible bullying situations.
